- 1,200 kg or 2,640lbs per Skid
- Each Bricks expands upto 70 litres
- Super Washed Husk Chips
- PH 5.5-6.0
- EC<350ppm

# Why Choose our Coco Coir Husk Chips ?

**Expands to 70 Litres:** Our compact Coco Coir Husk Chips expand to 70 liters when hydrated, offering a generous supply of growing medium for all your gardening needs. Just add water and watch them transform into a light, airy substrate that's ready to nurture your plants.

**Excellent Moisture Retention:** Coco Coir Husk Chips are renowned for their ability to retain moisture while still providing excellent drainage. This ensures that your plants have access to the water they need without the risk of waterlogging, promoting healthier root systems.

**Long-Lasting and Durable:** Unlike other organic materials that break down quickly, Coco Coir Husk Chips maintain their structure over time, making them a durable, long-lasting option for mulching, potting, and soil improvement.

**Eco-Friendly and Sustainable:** Made from the fibrous husk of coconuts, our Coco Coir Husk Chips are a 100% natural, renewable resource. Choosing Coco Coir Husk Chips helps reduce environmental impact and supports sustainable gardening practices.

# Who Can Benefit from Coco Coir Husk Chips?

Our Coco Coir Husk Chips are perfect for a variety of users, from professional horticulturists to hobby gardeners. Here's how different users can take advantage of this versatile growing medium:

- **Orchid Growers:** Coco Coir Husk Chips provide the perfect environment for orchids, offering the right balance of moisture and aeration that mimics their natural habitat. The chips prevent root rot and allow for optimal air circulation, which is crucial for orchid health.
- **Home Gardeners:** Ideal for both indoor and outdoor gardening, Coco Coir Husk Chips can be used as a mulch, soil conditioner, or potting mix component. They help retain moisture, suppress weeds, and improve the overall health of your plants.
- **Hydroponic Growers:** In hydroponic systems, Coco Coir Husk Chips offer a stable, well-draining medium that supports healthy root development and nutrient absorption. Their durability and structure make them a reliable choice for hydroponic setups.
- **Landscapers:** Use Coco Coir Husk Chips to enhance garden beds, borders, and landscapes. The chips provide a natural, attractive finish while helping to conserve soil moisture and reduce the need for frequent watering.
- **Compost Enthusiasts:** Incorporate Coco Coir Husk Chips into your compost to improve moisture retention and aeration, speeding up the decomposition process and resulting in richer, more fertile compost.

# Applications of Coco Coir Husk Chips?

- **Mulching:** Spread Coco Coir Husk Chips around your plants and trees to retain moisture, suppress weeds, and protect roots from extreme temperatures. The chips also add a decorative, natural appearance to your garden.
- **Potting Mix:** Combine Coco Coir Husk Chips with other growing media like Coco Peat, compost, or soil to create a well-balanced potting mix. This mixture is ideal for container gardening, providing the right amount of moisture and aeration.
- **Soil Amendment:** Mix Coco Coir Husk Chips into garden soil to improve its structure, enhance drainage, and increase water retention. This is particularly beneficial for clay-heavy soils that tend to compact easily.
- **Orchid and Epiphyte Substrate:** Use Coco Coir Husk Chips as a standalone growing medium for orchids and other epiphytes. The chips provide the perfect blend of air and moisture, encouraging healthy root growth and vibrant blooms.
- **Hydroponic Systems:** As a hydroponic growing medium, Coco Coir Husk Chips offer a stable, inert environment for roots, allowing for efficient nutrient delivery and preventing waterlogging.

## **Why Wait? Transform Your Garden Today!**

Experience the benefits of using Coco Coir Husk Chips—the natural, sustainable choice for gardeners who care about their plants and the environment. Whether you're cultivating delicate orchids, enhancing your garden beds, or experimenting with hydroponics, our Coco Coir Husk Chips provide the perfect solution for all your gardening needs.
